

Triple+ Hub

Product/technical description

The Hub communicate with Triple+ wireless flood detectors and Triple+ actuators and update the cloud on the status of connected devices. The hub may automatically close the actuator on flood detection based on the hub configuration.

Antenna description:

1. Antenna type: Helical
2. Gain: 2dBi
3. Triple+ production
4. Operational frequency: single channel 915MHz

Power operation range:

1. From 0dBm to 10dBm

Hopping Transceiver:

Not Applicable
